

1.

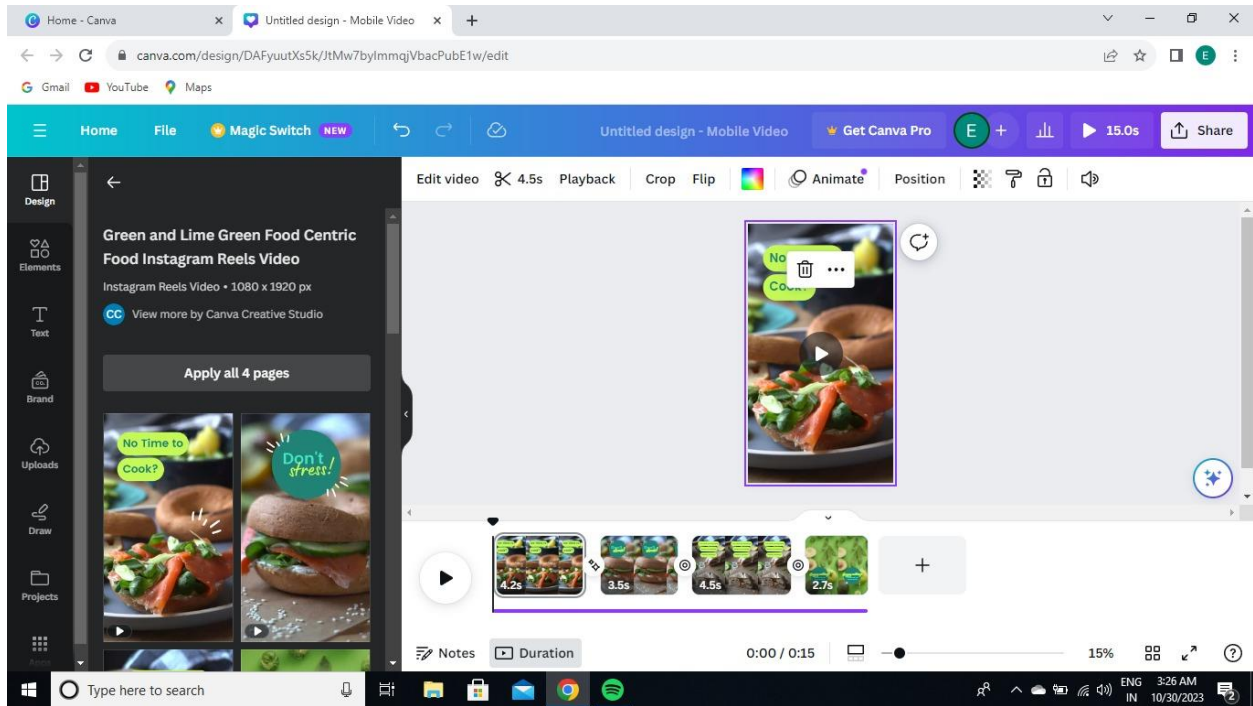

2 . Sign In or Create an Account: If you don't already have a Canva account, sign up for one or log in if you do.

3. Start a New Design:

Click on the “Create a design” button.

In the search bar, type “Instagram Reel” or the dimensions you want (typically 1080 x 1920 pixels for vertical videos).

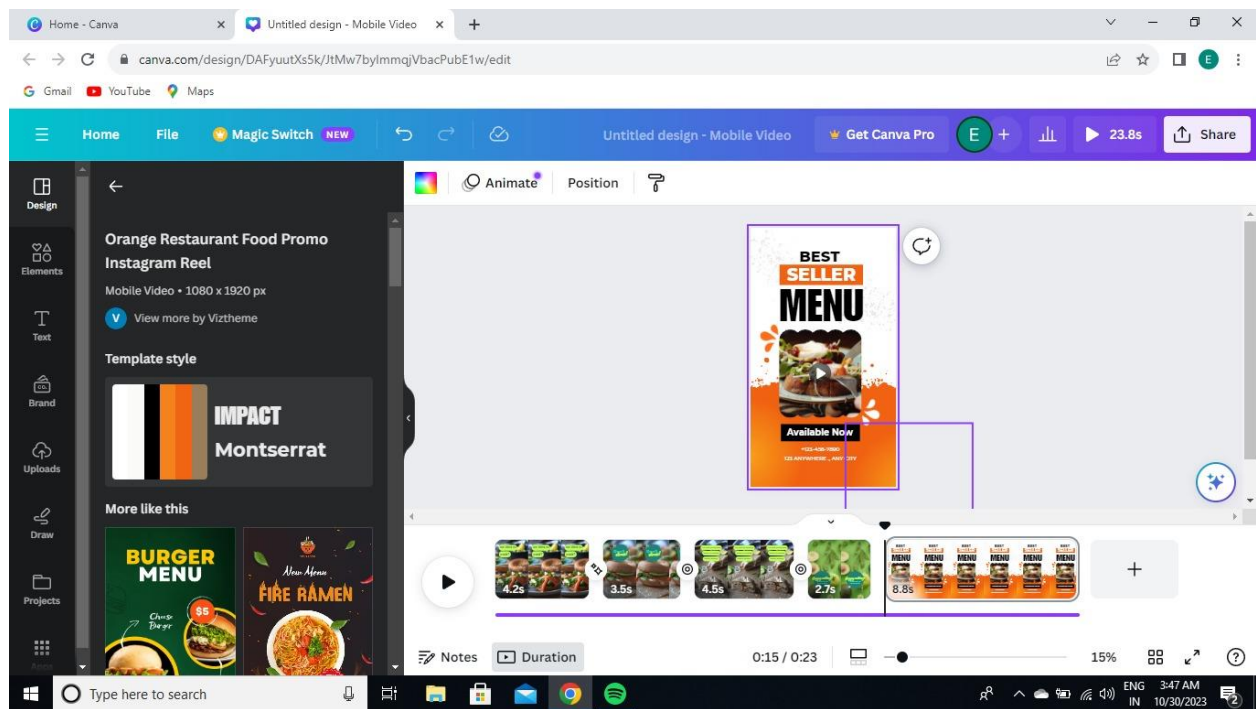

4.

Customize Your Design:

You can customize the template by changing the background, adding text, images, and other elements.

To add text, click on the “Text” tab on the left side, and select a text style you like. Then, click on the template to add and edit your text.

You can click and drag to move elements around, resize them, or adjust their transparency.

Once you're satisfied with your reel design, click the "Download" button to save it to your device.
